LEGEND FOR GIRDER PLATE SCHEMATIC:

- Actual girder plate (main)
— Actual girder plate (closure)

NOTES:

- Splice locations and patterns are shown for information only. Contractor shall be responsible for the design and detailing of splices suitable to his erection methods. All splices shall develop the full capacity of the connected parts, except for architectural splices shown in the plans. For design criteria see the "General Notes" sheets. The Contractor shall submit his design details for review and approval by the Engineer.
- Acceptable splice details are shown on "East Anchorage Construction Details No. 3" sheet.
- During field welding the cable strands shall be protected to the satisfaction of the Engineer.
- For connections containing both welded and bolted parts, bolts shall be designed as "slip critical"
- Stiffener across web splice may be installed in the field or spliced at web splice location.
